

PECO offers
more ways
to help your
business save.

Energy-efficient upgrades are a bright way for businesses of all sizes to reduce operating costs and improve productivity. With **instant lighting discounts** and **increased financial incentive levels** on a variety of energy efficiency upgrades, PECO can help you shine light on new ways to save. See all available incentives for businesses at peco.com/MoreSavings.

Pick some up today!

Restrictions apply. To locate a participating distributor, and for eligibility requirements, visit peco.com/InstantDiscounts or call **1-844-4BIZ-SAVE** (1-844-424-9728).

- Have your PECO account number or meter number with you when you inquire.
- You must be a commercial PECO customer (or a contractor purchasing for a project with a commercial PECO customer).
- Incentives above \$5,000 require preauthorization, and all products must be installed in PECO service territory at the location reported to your distributor within 45 days of the purchase date.
- Customers may be contacted to verify the equipment was purchased and installed.
- New construction, residential, multifamily, assisted living/nursing homes and condominiums are not eligible.

PECO. The future is on.

Instant Lighting Discounts
for Business

Buy Now. Save Now.

No paper application required.

peco.com/InstantDiscounts

Choose energy-efficient LED lighting for your business and **save instantly at checkout**. PECO makes it easy. **No paper application required.**

Bring this information to get instant discounts:

- Customer's 10-digit PECO account number, meter number or address
- Customer's name, business name and email address
- Installation address and type of building

► Visit peco.com/InstantDiscounts or call **1-844-4BIZ-SAVE** (1-844-424-9728) to locate a participating distributor and for eligibility requirements. Restrictions apply.

*Field-configurable single- versus double-sided LED exit signs will have discounts at the lower single-sided level (\$6). If an exit series has single- versus double-sided options hardwired at the factory, the model number associated with the SKU on the transaction PDF must clearly show which option is associated with the SKU. Different SKUs need to be used for single- versus double-sided hardwired variants in a series of products.
