

## PECO offers more ways to help your business save.

Energy-efficient upgrades are a bright way for businesses of all sizes to reduce operating costs and improve productivity. With **instant lighting discounts** and **financial incentives** on a variety of energy efficiency upgrades, PECO can help you shine light on new ways to save. See all available incentives for businesses at [peco.com/MoreSavings](https://peco.com/MoreSavings).

## Pick some up today!

Restrictions apply. To locate a participating distributor, and for eligibility requirements, visit [peco.com/InstantDiscounts](https://peco.com/InstantDiscounts) or call **1-844-4BIZ-SAVE** (1-844-424-9728).

- Have your PECO account number or meter number with you when you inquire.
- You must be a commercial PECO customer (or a contractor purchasing for a project with a commercial PECO customer).
- Incentives above \$5,000 require preauthorization.
- Customers may be contacted to verify the equipment was purchased and installed.
- New construction, residential, multifamily, assisted living/nursing homes and condominiums are not eligible.
- The minimum customer contribution is \$0.50 on all distributor invoices submitted for reimbursement effective on or after June 1, 2020.

PECO. The future is on.

## Instant Lighting Discounts for Business

# Buy Now. Save Now.

No application required.

[peco.com/InstantDiscounts](https://peco.com/InstantDiscounts)

Choose energy-efficient LED lighting for your business and **save instantly at checkout**. PECO makes it easy. **No application required.**

Bring this information to get instant discounts:

- Customer’s 10-digit PECO account number, meter number or address
- Customer’s name, business name and email address
- Installation address and type of building

► Visit [peco.com/InstantDiscounts](https://peco.com/InstantDiscounts) or call **1-844-4BIZ-SAVE** (1-844-424-9728) to locate a participating distributor and for eligibility requirements. Restrictions apply.

\*Field-configurable single- versus double-sided LED exit signs will have discounts at the lower single-sided level (\$6). If an exit series has single- versus double-sided options hardwired at the factory, the model number associated with the SKU on the transaction PDF must clearly show which option is associated with the SKU. Different SKUs need to be used for single- versus double-sided hardwired variants in a series of products.
